

# Ukulele After School Club!

**The newly formed 'U Team' is looking to form a trendy new Ukulele Club at your school.**

We are offering a weekly after school club comprising an hour of fun musical warm ups and games, beginners tuition in learning chords, fingerpicking and singing a whole host of cool songs. A further bonus is that children will learn to work as a team - an essential life skill. An instrument that is now taken seriously in its own right and is a perfect stepping stone to guitar tuition in future.

The benefits of musical tuition cannot be underestimated and bring a whole host of extra skills besides musical fun including learning patience, coordination, self-expression, promoting maths skills and social skills.

We can provide ukuleles for the first session and then can recommend the right size and model for your children going forward.
